OBJECTIVE

B.Tech AI & Data Science student with a strong foundation in Machine Learning, Data Structures and Python, backed by two AI/ML internships and hands-on projects. Seeking an entry-level AI/ML Engineer role to build practical AI solutions, solve real-world problems and keep growing with a team.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, SQL
- **AI Core:** Machine Learning, Deep Learning
- **AI Tech:** AI Agents, MCP, RAG
- **Tools:** Git, GitHub, XAMPP, Hugging Face
- **Database:** MySQL
- **Frameworks:** TensorFlow, Scikit-learn, FastAPI
- **CS Fundamentals:** DSA, DBMS, CN, OS, OOP
- **Cloud:** AWS(EC2,S3,IAM,RDS,VPC)

PROJECTS

Solar Power Prediction **2025**

Tech: Python, Scikit-learn, Pandas, NumPy, Ensemble Learning

- Built a machine learning model to forecast solar power generation from historical solar plant data.
- Performed data preprocessing, EDA, feature engineering and model evaluation to improve prediction accuracy.
- Achieved an R^2 score of 0.87 using ensemble learning algorithms, delivering reliable solar power forecasts.

Outing Pass **2025**

Tech: Python, MySQL, SQL, XAMPP, QR Code, Role-Based Access

- Manual hostel outpass management caused delays, security issues and poor student tracking.
- Developed a QR-based hostel outpass system with secure role-based access and pass approval workflows.
- Built admin and security dashboards with MySQL integration for real-time monitoring.

Sportify – Smart Sports Room Management System **2026**

Tech: Python, FastAPI, MySQL, SQL, Machine Learning, XAMPP

- Developed a system for equipment booking, availability and return tracking to remove booking conflicts.
- Built student and admin dashboards with MySQL integration for efficient resource management.
- Added a machine learning model to predict peak equipment booking hours from booking data.

INTERNSHIP

Machine Learning Intern - Svasti Technology **2025**

- Built and evaluated Machine Learning models using Python & TensorFlow on real-world datasets.
- Gained practical experience in AI model development, testing and optimization

Artificial Intelligence Intern - Rinex Technology **2024**

- Learned core AI and machine learning fundamentals through hands-on Python exercises.
- Explored basics of LLMs and Prompt Engineering to generate and test text outputs.

ACADEMIC QUALIFICATIONS

B.Tech in Artificial Intelligence and Data Science, 2023–2027 **CGPA (up to 6th Semester): 7.2**

Velalar College of Engineering and Technology

Government Boys Higher Secondary School, Mangalampettai **HSC: 81%** **May 2023**

CERTIFICATIONS

- **AWS Certification** - Gained practical knowledge of AWS services, cloud architecture & cloud-based solutions.
- **Power BI Workshop** - Developed interactive dashboards & reports using data modeling & visualization techniques.
- **5G Hackathon** – Participated in the VIT Chennai 5G Hackathon and collaborated on solving real-world challenges through innovative solutions.
